OPEN WATER SCUBA DIVING COURSE

The Diver's Cove Open Water Scuba Diver course is an entry-level certification course designed to give you the necessary skills to safely conduct open water dives. Some of the many skills you will learn include buoyancy, proper weighting, marine conservation, equipment assembly, proper dive planning, and maintenance. The course covers all the basic knowledge about equipment, physiology and the marine environment while training students to perform basic skills underwater. Scuba is SAFE. With the training you'll receive from our certified instructors, you will be prepared for anything. You'll be well-informed on all of the elements of safe diving, and have enough practice underwater to be comfortable with proper diving techniques and protocol. This course is the key to start exploring dive destinations around the globe or just in your backyard!
